FEAR FOREST

All Colleen ever wanted was to be a park ranger, but it might not be what she signed up for. After an orientation for campers goes horribly wrong, she is forced to face her greatest fear. Will her first day on the job be her last? In Fear Forest, roving bears, a deranged mountain man and strange visions are the least of her worries....

A quirky new comedy from the creator of the fringe hits:

The Hysteric, 2011
